Contract For Wireless Internet Service

This contract for Wireless Internet Service (the "Service") is entered into between _____ (Subscriber) and Daviess-Martin Rural Telephone Company dba RTC Communications (Provider) effective as of the last date of execution of this contract.

Subscriber agrees to subscribe to Provider's Service from the date of installation of the Service and for the thirteen (13) full consecutive months immediately following installation of the Service and to pay Provider for the Service at a monthly Service Rate of \$_____ (prorated for partial months) plus any taxes applicable to the Service. In exchange, Provider agrees to install a wireless Internet radio and associated equipment (the "Radio Equipment") on Subscriber's premises at a location acceptable to both Subscriber and Provider, to furnish the Radio Equipment for Subscriber's use in connection with the Service, and to provide the Service at the Service Rate during this period. The Service Rate will be waived by Provider for the initial 30-day period following installation ("free period"). The installation shall also be without charge to Subscriber unless Subscriber fails for any reason to continue the Service during the term of this contract after the free period, in which event the Subscriber shall pay Provider an installation charge of \$200.00, together with any taxes applicable to the installation.

Subscriber understands and agrees that the Radio Equipment has a value of no less than \$600.00 and is and shall remain the property of Provider at all times. Upon termination of the Service Subscriber will grant Provider any and all access to the Subscriber's premises reasonably necessary for removal of the Radio Equipment and its return to Provider in good condition. If Subscriber fails to do so, Subscriber shall pay Provider the agreed value of the Radio Equipment, in addition to all other sums due Provider by Subscriber pursuant to this contract, within five (5) days of demand by Provider.

Provider may upgrade or replace, and will maintain, the Radio Equipment. Provider is not responsible for any damage to any Subscriber equipment connected to the Radio Equipment. Damage to the Radio Equipment or Subscriber's own equipment shall not relieve the Subscriber from liability for payment for the Service.
