

## Contract For Digital Subscriber Line (DSL) Service

This contract is entered into by \_\_\_\_\_ (Subscriber) and Daviess-Martin Rural Telephone Company dba RTC Communications (Provider) beginning on \_\_\_\_\_. **This contract may be cancelled, for any reason, by the subscriber, within thirty (30) days from this date.**

The Subscriber agrees to subscribe to the Provider's DSL service for a period of twelve (12) consecutive months, without interruption, from the above date at a rate of \$\_\_\_\_\_ per month plus any applicable taxes or fees. In exchange, the Provider will supply the Subscriber with a DSL modem for the Subscriber's use. After paying for twelve (12) consecutive months of service, the DSL modem becomes the property of the Subscriber. If the Subscriber fails, in any regard, to continue the DSL service for twelve (12) consecutive months, **after the initial one (1) month free period**, the Provider reserves the right to apply a charge of \$116.95 and any applicable taxes and fees, plus the initial installation charge of \$95.00, to the Subscriber's monthly bill for payment of the Provider's DSL modem.

The Provider does not warrant the DSL modem for any defects except those covered under the original manufacturer's warranty. The Subscriber is solely responsible for the good working order of the DSL modem and the protection of the DSL modem from damage, including Acts of God i.e. lightning, and understands that the Provider will not replace the DSL modem, without a fee, if it becomes damaged. Damage to the DSL modem or other computer equipment does not relieve the Subscriber from the liability of payment for DSL service.
